BRAKE DRUMS

BRAKE DRUM FLT4400B

Features

- Quality assurance: Aftermarket quality tested.
- Easy replacement: Fully interchangeable with many competitive Original Equipment Manufacturer (OEM) and aftermarket drums.
- Multiple applications: Truck, tractor, and trailer.
- After sale support: Confident in the quality and performance of our Fleetrite drums, we stand behind a 1-year parts and labor warranty when installed at an authorized International dealer.
- Built to last: Constructed from high-quality material to withstand the rigors of the road.

Specifications

- Part Number: FLT4400B
- Weight: 103.8 lbs
- Number bolt holes: 10
- Size: 16.5" x 7"
- Material: Cast iron
- Bolt hole size: 1"

Increased range adjusts to fit over 80% of tie rod assembly lengths in the market (57" to 73 7/8").

The table to the left captures example cross references to a QWIKTIE tie rod assembly. For any given axle or tie rod end, there can be many possible combinations of cross-tube lengths. For example, there could be as many as 40 different assemblies using the ES423L tie rod end. For a complete list of cross-tube lengths, visit STEMCO.com.

DPF AND DOC CLEANING

A clogged filter contains the equivalent of more than 10,000 kilometers of accumulated and concentrated emissions, which results in higher fuel consumption, increased wear and tear to other parts, and could even stop the truck entirely.

DPF/DOC CLEANING ONLY AVAILABLE AT THESE LOCATIONS:

Brantford
519-720-1100

London

Chevron & Catalys: Powering Your Fleet's Performance

In on-highway transportation, **fleet reliability is crucial**. Every component, from the engine to the transmission, must operate flawlessly to keep your business moving. The **quality of your lubricants** is often the key to this reliability, making the right choice an investment in performance, efficiency, and longevity.

CHEVRON LUBRICANTS: A RENOWNED GLOBAL BRAND

Chevron is a renowned global brand known for high-performance lubricants designed to meet the demands of modern fleets. With a focus on technology and fuel efficiency, Chevron products are trusted worldwide to protect valuable assets.

CATALYS - GEARED TO PERFORM

Catalys is a Canadian brand delivering quality and value. Designed for Canada's diverse climate and industries, Catalys provides reliable, high-performance solutions at competitive prices.

THE DELO® ADVANTAGE

At the core of Chevron's lineup is the Delo® range of heavy-duty engine oils, coolants, transmission fluids, and greases. Powered by ISOSYN® Advanced Technology, Delo products combine high-quality base oils and advanced additives to deliver longer oil life, better wear protection and longer engine life.

Products like Delo® 400 XLE SAE 10W-30 and XLE SB 15W-40 maximize fuel efficiency, reduce wear, and extend drain intervals, cutting operating costs and boosting uptime.

RELIABLE PERFORMANCE WITH URSA®

Chevron's Ursa® line offers practical, cost-effective solutions without sacrificing quality. Ursa® Super Plus EC SAE oils work for a range of diesel and gasoline engines requiring API CK-4 or API SN service categories, making them ideal for mixed fleets. Ursa keeps engines clean and protected, ensuring long and reliable service life.

TURBOCHARGERS

POWER. PRECISION. PROUDLY NORTH AMERICAN.

UC Power turbochargers deliver the performance your fleet demands backed by a supply chain you can trust. Every unit is 100% North American, with 60% of raw materials sourced in the U.S. and the remaining 40% from Canada.

From billet wheels to variable-geometry turbos, all machining, design, and assembly happens right here in Canada, ensuring quality control, reliable fit, and components built to last.

Whether you're running Cummins, Detroit, MaxxForce, or PACCAR engines, UC Power offers a line of premium turbochargers engineered for strength, efficiency, and confidence on the road.

BEST WARRANTY IN NORTH AMERICA

2

YEAR UNLIMITED MILEAGE

(See warranty policy for details)

3

YEAR UNLIMITED MILEAGE IF YOU BUY THE TURBO AND ACTUATOR TOGETHER

(Actuator installation & calibration included)

ENGINE/MODEL	DISPLACEMENT

MX13	12.9 L

WHY CHOOSE UC POWER TURBOCHARGERS?

Every UC Power turbocharger is built with precision, durability, and performance in mind. From materials to machining, the focus is on delivering OE-level quality with North American craftsmanship you can trust.

- UC Power's team has over 20 years of manufacturing experience in the automotive and commercial vehicle industries.
- They use the latest in 3D scanning equipment and software to reverse-engineer components with extreme precision.
- Compressor wheels are crafted in-house to the highest quality standards, complying with OE specifications, and are available in both cast and billet CAE (computer-aided engineering).
- Specialty materials are not compromised. Inconel is used for all turbine wheels to withstand extreme heat.
- Turbine housings and bearing housings are cast in North America to ensure quality, reliability, and consistency, and can withstand up to 2100°F.
- Aluminum compressor covers are designed and machined to increase boost while improving fuel efficiency at certain RPM levels.
- Certain turbocharger models are equipped with OE-specified diaphragm actuators (if applicable).
- Dual hydrodynamic journal bearing design with a 360° thrust bearing provides added durability.
- VGT turbochargers can be supplied with or without an electronic actuator (pre-calibrated if equipped).
- All VGT turbochargers can be built with a premium nitrated chromium super-alloy nozzle ring for improved longevity.

Fleet Productivity, Compliance and Safety Solutions

Geotab GO Device

Capturing the broadest and richest vehicle data

The Geotab GO9 telematic vehicle tracking device captures and normalizes critical data from over 9,000 different cars, vans and trucks. Plug the GO device into any vehicle's standard OBDII port and start capturing the industry's highest quality vehicle data.

Key benefits of the GO device include:

- Support for mixed fleets of different OEM makes and models
- Patented curve algorithm enables low bandwidth data transmission
- High resolution vehicle positioning for total fleet visibility

EFFORTLESS ELD SOLUTIONS, CERTIFIED IN THE U.S. AND CANADA

Geotab offers a broad range of certified ELD solutions for both the U.S. and Canada. Geotab offers ELD solutions with GO7, GO8, GO9, and GO9+ hardware. We also have a mobile app called Geotab Drive for Android and iOS devices.

FLEET DASH CAMS

Safeguard your business reputation with high-quality HD trip recordings. Our top-tier commercial dash cams easily connect to the Geotab telematics system, helping lower accident rates and defend against fraudulent claims.

Surfsight Camera

Surfsight dash cams provide real-time visibility into vehicle activity, enhancing safety and efficiency.

These cameras capture high-quality footage inside and outside the vehicle, helping you monitor driving behaviors, assess accidents, and prevent risky driving. The system integrates with Geotab's telematics, offering detailed insights such as speed, location, and driving events.

- Real-time visibility into fleet activities
- High-definition footage of both vehicle interior and exterior
- Seamless integration with Geotab telematics for detailed insights (speed, location, driving events)
- AI-powered alerts for risky driving behavior and collision detection
- Cloud-based video storage and retrieval
- Customizable solutions for various fleet sizes and industries
- Enhanced safety and operational efficiency

EASY DRIVING, EASY MAINTENANCE

ISUZU
TRUCK

Gas Powered Trucks from Isuzu

Why Gas?

- Gas more widely available than Diesel for fill-ups
- Simpler and less costly maintenance than diesel engines
- No DEF to contend with
- Easier Cold starts in winter
- No Loss of Payload capacity
- Gas more familiar to drivers of this size of truck.
- No diesel regens
- No sudden engine derates

Who Should Think About Gas

- If you drive 50,000 km's per year or less, Gas may make better sense for your business
- Diesels will be getting harder to acquire in the coming years as environmental laws take effect.
